

VAN GOGH

Taking inspiration from wood and stone found around the world, our Van Gogh range offers a wide selection of designs to choose from. From European oaks to Italian marbles, there are designs to suit both contemporary and rustic interiors.

Karndean 

An aerial photograph of a dense forest. The trees are mostly green, with some brownish-red trees in a small clearing in the upper center. The lighting is soft, creating a rich, textured appearance of the foliage.

At Karndean, we see flooring differently.

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors that bring your vision to life. We take our clients on an endless journey of design discovery.

ENVIRONMENT

Leading the way with change...

We find inspiration in the beauty of the natural world and are committed to producing stylish and durable floors with the lowest possible impact on the environment. With a sustainable construction and people centric approach we are designing products that improve indoor environmental quality. Karndean flooring not only offers the stunning aesthetics of natural materials and the practical benefits of luxury vinyl but also contributes to a green built environment.

- ✓ Our products are 100% phthalate free.
- ✓ We meet the BREEAM assessment rating using the BRE Global Guide to specification, falling into a generic A/A+ rating depending on application and specification.
- ✓ We fall under the M11 section of the SKA rating, helping to reduce the environmental impact on refurbishment projects.

Taking steps to a healthy tomorrow

When specifying flooring we understand that sustainability is a key consideration. In a highly connected world, caring for our community and prosperity means also protecting our planet. Through the development of sustainable products and processes, our flooring is manufactured in factories certified to the ISO 14001 Environmental Standard and ISO 9001 Quality Standard. Our products also contain up to 50% recycled material in the backing layers taken from post-production waste (off-cuts, trimmings and process dust). Almost 100% of this production and post-production waste is then granulated and recycled back into a new plank or tile.

Improving transparency

Our environmental product declarations (EPDs) are product specific type III EPDs with external third-party verification. Both our gluedown and rigid core EPDs feature lifecycle analysis data (LCA) specific to each individual range, and can be used in conjunction with associated LEED and BREEAM projects. It evaluates a product's environmental impact in association with the following potential factors:

- Global warming
- Ozone depletion
- Fossil fuel depletion.

Sustainable raw materials

The PVC in our products is derived from a truly sustainable resource: salt. We also source from ISO 14001/ISO 9001 certified raw material suppliers where possible.

Safe products

All our products are free from:

- Heavy metals and comply with 'REACH' (Registration, Evaluation, Authorisation and Restriction of Chemicals)
- 'BPA' (bisphenol A) and formaldehyde.
None of our products are carcinogenic and none contain raw materials which are either reprotoxic or endocrine disrupting.

Air quality

Our products have been tested for contribution to indoor air quality and results demonstrate that our products are very low emitting in terms of VOCs (volatile organic compounds), meeting the strictest standards for air quality.

TECHNICAL SPECIFICATION

** Slip resistance is measured on freestanding ex-factory product. Slip resistance can be affected by many factors, including but not limited to; product installation and underlayment, surface contamination, use, wear and how the product is maintained. Textural variation along the surface of the product can affect nominal values.

CERTIFIED BY SCS Global Services

DUAL FORMAT

Discover versatility with our 3mm Van Gogh dual format range, featuring both wood and stone patterns. Offering a selection of designs in an additional rigid core format, Van Gogh ensures that specification requirements can be met without compromising style. Specify the gluedown format for areas where intricate layouts are preferred and choose rigid core for applications that require enhanced acoustics or reduced installation time.

Choose gluedown:

Available in a wide range of designs, colours, textures and sizes

Use our cutting service to create a bespoke look

Choose rigid core:

Hides subfloor imperfections

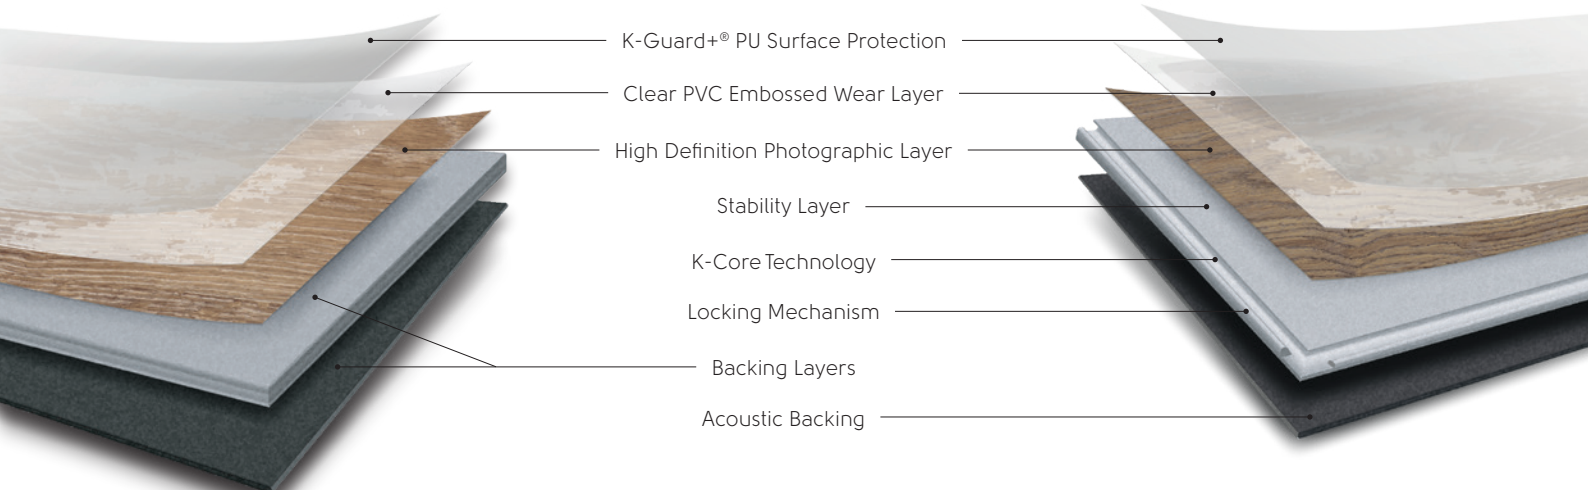

Superior acoustics between storeys

Quick and easy to install

Golden Brushed Oak **SM-VGW122T** | **SM-VGW122T-RKP**

HANDCRAFTED EMBOSS

A selection of our Van Gogh designs have been finished with a handcrafted emboss to ensure that each plank is inherently unique and thereby accentuating the natural aesthetics of the wood which inspired it. Look out for our natural wood grain icon to see which of our designs benefit from this natural finish.

Golden Brushed Oak **VGW122T** | **SM-VGW122T**

BENEFITS

From large commercial environments to small residential rooms, at Karndean, our vast range of products offer the essential benefits that make our luxury vinyl tiles the perfect choice for any flooring space.

Acoustic qualities

Karndean is quieter underfoot compared to most hard flooring alternatives. Our rigid core products come with a backing that reduces noise transfer to rooms below, making it ideal for apartment blocks and any upstairs rooms.

Installation flexibility

Our dual format designs are available in both gluedown and rigid core formats. With the integration of rigid core technology into a selection of designs, specifiers and designers now have the flexibility to use the same colour but with a choice of format that's suitable for the environment.

Durable

Unlike other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Waterproof

Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet, making them perfect for kitchens, office tea points and washrooms.

Hygienic

Our floors don't hold dust, dirt, pollen or other allergens. Our cleaning products also kill 99.9% of germs.

K-Guard+®

We use K-Guard+® surface technology for scuff and stain resistance ensuring there is no need to apply an additional surface treatment following installation.

Low maintenance

The commercial cleaning and maintenance regime is simple and can be carried out by hand or using a mechanical cleaning apparatus. With Karndean, you don't have to worry about any sanding, refinishing, staining or varnishing either.

Realistic designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

SMALL PLANK

Designed to introduce more personality and elegance to commercial environments, Van Gogh herringbone offers a wide range of timeless and stylish LVT options. Available in 457mm x 114mm planks, or a larger 711mm x 178mm size, these planks allow for a more contemporary take on the traditional parquet pattern.
